

# Discover With Diane...

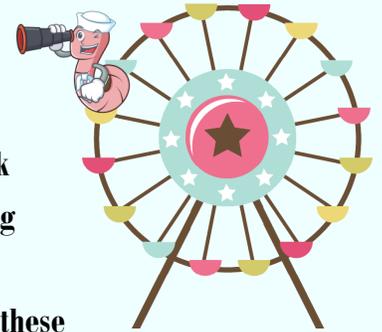

FALL & WINTER, 2019

## A Note From Diane

“Making memories while looking ahead”

When you board a ferris wheel, you are truly along for the ride. There is no getting off, unless the ride stops briefly to pick up new passengers. Around and around we go, savoring the moments and capturing memories in the process. As you look above and below, you see friends and family sharing this experience with you. You might actually find so much joy in watching these special people smiling, laughing and simply having fun, that you forget about your own ride. This is the “good stuff” that makes the ride worthwhile. I hope you are enjoying your ride and all of the memories that the Discover Club has given you. And more than ever, I hope that when you get to the top of that ferris wheel, you “keep your eyes open” for what’s coming next! I can hardly wait to share it with you, because this “good stuff” is the reason I love the ride!
