

## Discover With Diane...

FALL, 2021

### A Note From Diane...

With age comes wisdom...but “what if”...

Do you ever wonder why children ask so many questions? Their young brains are so open to new experiences and all that life has to offer. It could be that this curious nature allows them to see endless possibilities. These little ones come to us for direction and logical answers. But “what if” we sought them out for their thoughts and perspectives? I think it might change our tendency to look back and lament things of the past that are over and done with, to looking ahead at the “what ifs” that we can still make happen. This past year has offered me many opportunities to ask “what if?” One example is the Annual Potluck. In 2020, it seemed that cancelling was the only option, simply because we were unable to enjoy this event as tradition dictated. But the question “what if” was asked, and the Drive Thru Potluck was born! So much is possible if we move forward with not only wisdom, but also with a vision and the courage to ask “what if?”...

## Don't Fall For Phony Calls!

Vishing is when criminals attempt to influence action or gain your personal information over the phone.

They might claim to be a bank, credit card company, debt collector, charitable organization, healthcare provider or even the IRS!

Some may even say you've won a prize, but need to pay a small fee to collect it. These are all RED FLAGS! Don't fall for it! Fraudsters try to trick you into giving them sensitive information over the phone. NEVER give out your bank account number, social security number, credit card or debit card number over the phone. Legitimate businesses do not make unsolicited requests for your personal, sensitive or financial information. If you get a concerning call, HANG UP and call your bank, credit card company, or whoever the caller claimed to be, to verify if there is a real problem.
